

Let God's Light Shine Through

VISION OVERVIEW

When our church was formally blessed in October of 1929, it was through the dedication and sacrifice of our founding families that our beautiful stained glass windows were installed. Today, the windows at Holy Trinity are known throughout the area for their inspirational beauty. They remain a symbol of our faith and our thriving community.

In 2025, Holy Trinity celebrates 165 years of parish life. Together, we have an opportunity to repair and restore our windows in time to celebrate our current church's centennial in 2029. In matching the dedication and sacrifice of the original parishioners, our community can pass on our faith to those who follow us into the next 100 years!

It is the parish's wish to preserve our beautiful stained glass windows, so they can continue to represent the radiant Light of Christ in our lives! This project is focused on repair and restoration of the stained glass windows. Preliminary estimates place the value of professional restoration services at \$1.5 million.

FEASIBILITY STUDY JOIN US!

As with any major initiative, the first step is to listen to parishioners and gather comments and insight. It is through the feasibility study that a plan will be developed to address the window restoration.

Now is the time to give
your feedback!
